(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

At least one error upon which reissue is based is described as follows:

1. The inadvertent failure to include a claim, such as claim 15, that is otherwise similar to claim 1 but does not recite that the flux separating element is formed of a birefringent material, or a claim such as claim 21 that does not recite the use of a birefringent material (as does claim 1) or the use of a laser and a light-receiving element formed in a single stem (as does claim 11); and
